What Are Catch Combos?

Catch Combos are a mechanic that rewards players for catching the same Pokémon species consecutively. As your combo count increases, you will benefit from higher spawn rates for that species, additional shiny rolls, and the chance for guaranteed max IVs at higher thresholds.

Catch Combo Odds

The table below outlines the bonuses you receive at each combo milestone.

Combo	Extra Shiny Rolls	Spawn Boost	Guaranteed Max IVs
5	1	Slightly increased	0
10	2	Further increased	0
20	4	Noticeably increased	1
30	6	Greatly increased	2
40	8	Significantly increased	3
50	10	Massively increased	4
75	13	Near maximum	4
100	25	Maximum boost	4

> **Note:** Your combo will reset if you catch a different Pokémon species
