Gacha Machines

Scattered throughout the world, Gacha Machines accept Egg Tokens in exchange for mystery eggs. Insert a token, pull the lever, and see what hatches. Eggs come in four rarities, each with different hatch distances, shiny odds, and Pokémon pools.

Incubators

All incubators have **3 uses** before they break. Higher-tier incubators reduce the number of steps needed to hatch an egg.

Incubator	Steps Multiplier	Effective Hatch Speed
Tier 1	×1.0	Normal
Tier 2	×1.5	33% fewer steps
Tier 3	×2.0	50% fewer steps (half distance)

Example: A Common Egg (5,000 steps) in a Tier 3 incubator hatches in just 2,500 steps.

Hatch Accelerator Pokémon

Certain Pokémon have abilities (**Flame Body**, **Magma Armor**, or **Steam Engine**) that increase hatch speed by **50%** when in your party. This stacks with incubator bonuses. Keep one of these Pokémon in your team while hatching!
